senorail® COATINGS FOR TRAINS

senorail® COATINGS FOR TRAINS

senorail® is a worldwide brand of coatings for the interior and exterior of high speed trains, light rail vehicles, metros, regional trains, locomotives, bogies and wheel sets, components and freight wagons. The product portfolio covers **a wide range of solvent and waterbased coating systems**, for both internal and external applications on trains. In excess of 20.000 railway passenger coaches have been coated with the innovative senorail® base coat/clear coat system, as a solution for **the most extreme weather conditions**, from **Scandinavia and Russia to the Middle East**.

Regardless of whether market proven **Anti-Graffiti coating systems**, **fire protection EN 45545-2 on railway vehicle compliances** or **new application methods** (robotic application), senorail® always offers the right solution. With its comprehensive product portfolio and over 40 years of experience, senorail® is a synonym for a strong and reliable partner in the railway coatings industry.

Key coating performance for key players!

senorail® COMPLETE PACKAGE WORLDWIDE

Weilburger has specialised in manufacturing customized railway coatings worldwide for more than 40 years. With a network of different international production plants and associated sales partners senorail® offers a worldwide service and sourcing of our products.

The **specific match of components** and the **application technique** is crucial for a **high quality coating solution**. Our teams cooperate closely so we can guarantee our quality standards **all over the world**. As a **specialist for railway coatings**, the senorail® experts support both our customers and the coaters throughout the whole manufacturing process.

We claim: to be on the spot and provide expert knowledge.
This is what we call **THE COMPLETE PACKAGE. WORLDWIDE.**
